SUMMARY

One of the priority objectives of the LIFE + VALPORC project is to disseminate the development and scope of the results to all stakeholders involved in the chain value of pig sector, in order to promote the transfer of results and increase its impact at local, regional, national and European level.

The ADS, who is in contact with the main stakeholders, is the partner responsible for coordinating this action, and to performs most tasks, but also all members, participate actively.

Website: www.lifevalporc.eu. It has 4 fixed sections with project general information, in two languages: Spanish and English: The project, Life Program, Partners, and Actions; and 4 dynamic sections: News, Multimedia; Downloads & Contact where will incorporate the development of the project and results achieved, news of interest, material for downloading and images. The web was activated and presented on 10.29.2014. By December, 179 visits were received, the goal is to reach a level of interest of 200 visits / month.

The exchange of information between partners and the archive of technical or economic documents is restricted to members that have access by username and password. Type FTP (File Transfer Protocol) is set.

The website has a direct link to a blog and where the ADS have done 2 inputs of information related to the project. The website is also connected with social networking tools (RSS) for the exchange of information, monitoring, feedback and networking. It has developed project profiles on social networks like Twitter, Linked in and Youtube. The update of the dynamic part is performed by the ADS.

Development of graphic material of dissemination: it has designed one brochure with general project information in Spanish and English. It has printed 1,000 copies (Spanish). It has designed and built two (roll-ups), which have been used in workshops, networking activities, information days, and other events.

Notice boards are not designed or placed, is expected at the time prototyping begins.

Media publications. ADS developed a press release (10.27.2014), which sent the media coinciding with the opening day. The impact of the project in media was as follows: regional print media: 1 item; digital press, national character: 4 articles; radio, regional radio station Cadena Ser: 4 interventions; TV: Aragon Television (regional channel): 1 news.

Attendance at events. ADS has attended several events, with the aim of publicizing the project or to contact the stakeholders:

- Participation in the 14th Exhibition of Ejea de los Caballeros, during the 15th, 16th and 17th April, 2015.
- Attendance at the MAGRAMA conference: "Advancement of Best Available Techniques in the pig sector" (11/27/2014)
- Participation in the experts meeting of LIFE project FUTUR AGRARI. Barcelona / Lleida 15-16.12.14

CARTIF participated in the final Agrowaste Life Project Workshop, organized by the CSIC. Murcia. 2 and December 3, 2014.

CORPROAN participated in the XXII AINIA Forum. Madrid, April 14, 2015.

ADS organized, in collaboration with partners, the Project Opening Day of informative nature (30/10/2014). Following the presentation of project, 3 technical talks related to the project theme and ended with an open discussion were held. A total of 66 people attended. In the survey, it highlights the interest VALPORC LIFE + project, which was assessed with a 9/10, location (9.3 / 10), the treated subject (8.7), and overall assessment of the contents of the talks, between 7.8 and 8.5.

It has begun the activity with other European projects, mainly of the LIFE program. The 24.2.2015 was held at the headquarters of the ADS, a meeting of three active LIFE projects: LIFE + Manev, LIFE + FUTUR AGRARI and LIFE + VALPORC, all related to manure management and animal byproducts (ABPs). The aim was to exchange experiences of demonstrative type: work with stakeholders, implementation of ABPs management and hotspot analysis tools.

The project Life Valporc was included in the April 2015 newsletter of CAPACITY4FOOD collaborative project Europe-China, funded through the EU program Switch Asia. We have also included a summary in the "Best Practices" section.

There have been exchanging information with other 5 European projects.
